

丁嘉力

+86 156-2420-6798

jiali_ding@yeah.net

教育背景

伦敦大学学院，经济学部门

伦敦

经济学研究型硕士（MRes）

2023. 09-2024. 12

经济学理学硕士（MSc）

2022. 09-2023. 09

奖项荣誉：Distinction（英国硕士最高学位等级）

核心课程：计量经济学（89），货币与金融，概率及其经济学应用

澳门科技大学，商学院

2018. 09-2022. 06，澳门

应用经济学学士（BSc）

奖项荣誉：中国银行奖学金（学院前 1%），院长优秀生（学院前 5%），澳门国际马拉松团体奖，急救证书，Bloomberg 数据集培训证书。

核心课程：金融市场与机构（A+），金融风险管理（A+），数理经济学（A+）

学术项目

低碳试点城市政策对城乡收入不均的影响

2023. 06-2023. 09，伦敦

该论文获得英国硕士最高评分等级

- 通过应用高级计量经济学模型 (PSM-DID) 构建出低碳政策与社会福利间的关系，用计算机软件算法 (STATA) 分析了 250 多个地级市在十余年间的的历史数据。
- 创新性地指出低碳城市政策对社会福利有正向的作用，尤其是对于那些相对落后的城市，并运用数据图表将结果直观地呈现出来。

在小样本因子模型中决定最优的因子数量

2024. 06-2024. 09，伦敦

- 通过在某些特殊应用场景中引入新参数持续优化在有限时间内所进行的算法模型 (MATLAB)，极大程度地修正了一个被广泛应用的统计学模型（因子模型）的精确度。
- 在小样本因子模型中引入一个可供挑选适合模型的新标准，通过对比超过 500 对随机数列确保了结果的有效性。

低碳试点城市对二氧化碳排放量的影响

2022. 03-2022. 06，澳门

该论文获得 A+ 的成绩。

- 通过使用高级计量经济学模型对这一低碳政策的有效性给予了正面的评价。
- 通过应用一些稳健性检验如平行趋势检验和安慰剂检验证实了结果的准确性

工作经历

暑期分析师，资产证券化总部，天风证券

2021. 07-2021. 08，北京

- 对超过 100 家新能源与科技公司进行基准研究与对比，并按时高效地将公司财务报表中的净利润报告呈现给客户。
- 通过应用 Bloomberg 终端和比较分析法为高管演讲做好充分准备。
- 通过监测宏观经济政策和预测房地产投资信托基金的市场趋势，为每日研究报告做出贡献。

领导力及课外活动

队长顾问，龙舟队，澳门科技大学

2020. 09-2022. 06，澳门

- 作为团队负责人带领并训练超过 50 人的团队，将团队比赛成绩从澳门所有大学排名第五提升到第二名，并作为主力队员参加比赛。
- 确保每周三次高质量的训练，通过与其他校队和所有队员的协商统筹协调训练时间，每学年积极寻找赞助商以更新训练器械，提高训练效率。

专业技能及兴趣爱好

- 专业技能：CFA 一级候选人，GRE（数理满分），托福（100+）
- 计算机：熟练使用 Stata, EViews, MATLAB, Python，能够进行视频剪辑（剪映）。
- 语言：普通话（母语），英语（专业水平）。
- 兴趣爱好：在攀岩馆里与不同的朋友分享线路解决方案与思考方式

EDUCATION

University College London, Department of Economics

London

Master of Research in Economics (MRes Economics)

Sept 2023-Dec 2024

Master of Science in Economics (MSc Economics)

Sept 2022-Sept 2023

Awards: **Distinction**

Core courses: **Econometrics (89)**, Money and Finance, Real Analysis and Probability with Economic Applications

Macau University of Science and Technology, School of Business

Sept 2018 – June 2022, Macau

Bachelor of Applied Economics (BSc Applied Economics)

Awards: **BOC scholarship (ranking 1%)**, Dean's Honor List (ranking 5%), Bloomberg Dataset Training Certificate

Core courses: Financial Markets and Institutions (A+), Financial Risk Management (A+), Mathematical Economics (A+)

ACADEMIC PROJECTS

Research on low-carbon policy and income inequality

June-Sept 2023, London

The dissertation was graded to receive the highest possible degree for a UK master's degree.

- Formalised a relationship between carbon-related policy and social welfare through an advanced econometric model (PSM-DID), analyzed 250+ cities over ten years by conducting computer algorithms (Stata).
- Produced argumentation that this low-carbon policy has positive impacts on social welfare, especially for the relevant backward cities, and intuitively presented the results quantitatively.

Determining the number of factors in the finite-sample factor model

June-Sept 2024, London

- Corrected the accuracy of a widely used statistical model (factor model) with a new parameter in a specific application scenario by continuously optimising the computation algorithms (MATLAB) in a limited time.
- Introduced a new criterion to select the appropriate model when using it in a finite sample. Ensured the effectiveness of the results by repeating 500+ times over various random numbers.

Research on low-carbon policy and carbon dioxide emissions

Mar-June 2022, Macau

The dissertation received an A+ grade.

- Positively evaluated the effectiveness of this low-carbon policy by using an advanced econometric model.
- Verified the correctness of the results with some robustness tests (parallel trend test and placebo test)

EXPERIENCE

Summer Analyst, Asset Securitization Department, TF Securities

Jul-Aug 2021, Beijing

- Conducted a benchmarking study on 100+ comparable companies across the new energy and technology industries, and efficiently delivered the report about the net profit of the companies' financial statements to let people follow.
- Supported the preparation of C-suite presentations by leveraging the Bloomberg terminal and running comparative analysis.
- Contributed to daily research reports by monitoring macroeconomic policies and predicting market trends for REITs.

LEADSHIP & ACTIVITIES

Team Lead, Dragon Boat Team, Macau University of Science and Technology

Sept 2020- June 2022, Macau

- Elected team lead to rise from 5th to 2nd out of all the university teams in Macau by leading and training 50+ team members, participated in the game as a main player.
- Ensured training quality at least three times per week by coordinating the training schedules across all school teams and team members, and actively sought sponsorship for new training equipment every year.

SKILL & INTERESTS

- Qualification: CFA Level I candidate, **GRE (170 for Quantitative reasoning)**, TOEFL (100+)
- Computer skills: Proficient in Stata, EViews, MATLAB, Python, and capable of video editing (CapCut).
- Language skills: Chinese (native), English (professional proficiency).
- Interests: Sharing Beta and ways of thinking with different people in the bouldering gym.
